Introduction

Description:

This is a new reminder dialog template for national distribution to address identified needs of the National Veterans Golden Age Games to capture medical data to clear Veterans to participate in the Games at the time of screening.

- The annual National Veterans Golden Age Games (NVGAG) provides Veterans opportunities to engage in rehabilitative sport and recreation opportunities. It serves Veterans ages 55 years and older who are enrolled in the VA Health Care System.
- Participants learn to use the therapeutic value of sports, fitness and recreation through an active, healthy lifestyle by competing in sporting competitions for example air rifle, golf, swimming, track and field.
- By participating in NVGAG, Veterans reach their full potential, improve their independence, achieve a healthier lifestyle and enjoy a higher quality of life.
- This reminder template allows the VA provider to electronically capture medical data to determine participation in the National Veterans Golden Age Games.
- This will facilitate communication to health care providers at the Host Site Facility to ensure continuity of care while participation in the National Veterans Golden Age Games away from the Veterans primary site of care.
